WORK EXPERIENCE

Programmer Analyst | WEA Member Benefits
June 2020 – January 2021

- Assisted senior developers with bug fixes and the development of new website features using PHP and jQuery
- Wrote PowerShell scripts to extract and transform essential data to be analyzed by managers
- Built Microsoft Power BI reports to visualize company data for other departments
- Helped staff troubleshoot technical support issues at the help desk

Windows Automation Intern | University of Wisconsin-Oshkosh
May 2017 – May 2020

- Maintained and deployed over 600 Windows applications with System Center Configuration Manager
- Entrusted to train new interns
- Wrote PowerShell scripts to automate SCCM package creation and other IT related tasks (reading/writing CSVs, getting hardware information, etc...)
- Created Power BI reports to monitor software compliance rates, which were utilized by department supervisors
